

There is no condemnation. Only new creation
Celebration of the unchained generation
Word of God incantations
Freedom fighter protestations
Sword of truth to wicked administrations
Natural hair domes like flaming crowns
Mind power stomp the devil down
Pursue your purpose like the Caleb hound
You can be the greatest pound for pound
Jesus freed you so you freed indeed
To claim your harvest, sow your seed
Believe the creed/ God meets your needs
Heed the war tactics make the enemy bleed
Be the best me that me can be
Expand your vision from sea to sea
Be free to reach for destiny
You are God's property
You are God's prodigies
You are the epitome of the devil's enemy
You are the remedy of a nation's malady
So, don't depress but press through stress
Through it all Jah Love does bless
You got will power to press through mess
The duress wicked processes you equipped to correct
You got the mission God will direct
Guard your heart inspect it protect it
Guard your life, build it erect it
Don't trip to darkness when you feel rejected
Don't spiral down the hole all dejected
The devil is a liar and the father of lies

UNCHAINED GENERATION

Shine your light and devil schemes die
God on High is there when you cry
Jah Love the answer when your heart asks why
So, strap on the Word and be a devil terminator
Jesus the way maker for your path to be straighter
Business administrators/ movement orchestrators
Culture generators/ justice perpetrators
Peace motivators/ debt eliminators
Unchained Generation deflates the haters
Unchained Generation pushing through to greater
Vistas irresistible as climate change twisters
Get Good News shoes so soul don't blister
Eyes on prize, shoot, don't miss
No better high than achievement bliss
Devil punks out from your will to resist
Your mind insists, your labor persist
Demons desist when you raise the fist
Sabotage the wicked like guerrillas in the mist
Next level living is why we exist
You're global noble immune to the PoPo
You flow you glow you stone to the bone
Unchained brain light shines from your dome
Unchained generations gaining freedom zone
Free your minds your booties will go on
Consolidate your cash so you can sow on
Unchain your soul so you can flow on

Grab onto God so you can hold on
Head in sky science like the Dogon
Transcend tricknology of dragons
Mark of high calling push on
Put your legacy of Cush on
You got living water. Gush on
Don't be crazy lazy. Get your Rush on
No weapon forged shall prosper
Gods good news is the Gospel
Get on the movement roster
Back enemy down and poster
Let Holy Spirit Holy Ghost you
So life don't roast you
You got the boast to the most
You got skills to toast and roast
You got back up of heavenly host
Unchained generations from coast to coast
Don't dampen the vibe
Fan the fires to drive
Inspire your desire to strive
Conspire together to thrive
Next level living is all the way live
Next level living is all the way live
Next level living is all the way live

PROCLAMATION EMANCIPATION

Jah people gold people bold rebels of gold soul
Freedom fighters, enterprisers, world civilizers,
Healers, burning spear welders, pyramid builders,
Love preachers, Spirit beseechers, world teachers,
Birthing high culture in systems of mystery,
Heartbeat of 10000 years history,
My people bold people gold rebels of old soul,
Arise I arrive bearing notions to make you whole,
Wreak chains free brains/ behinds will follow,
Heap of beats seep deep and fire flows,
annihilate from mind's eye toxic lies
Devil opiates pushed to thrill and spirit kill
Us with chaos delusion and death:
I'm a rebel soul rebelling,
Simple truths I be telling,
In the wilderness wailing,
A cut throat demon slasher,
Razor intellect flasher,
The enemies worst disaster,
Snatch shackles from the slave,
Raise hope from the grave,
Future paths I pave,
Ride resistance wave,
Make depraved behave,
When the wicked rave,
I dismiss them to the cave.

PROCLAMATION EMANCIPATION

I a Jah man, Blackheart from Black Planet,
Lyrics feather light hit hard as Black granite,
Truth juice to suit you sweet as pomegranate
Celestial tech in effect I wreck mics and vanish,
Blow up spots with lyric flow outlandish,
Filled with Blues vibes Black and mannish,
I fast like Ramadan, under salvation sun,
Got ghosts on run, from my cosmic drum,
Dropped on the one and I'm done.

Sike!!

Bebopping righteous grooves,
Can't stop won't stop refuse to lose,
Bearing vital potions, dipped in Nubian notions
Buck and boot dance motions, Great Spirit devotions,
Deep in constitution; I get Hueman evolution,
Global solution, Common Good revolution.

But the lost believe Jah Love is wack,
Blind to Hueman sight, depressed and soul cracked,
Jim Crow assault locks up the Black,
Drive by rage, our own we attack,
Bullets blazing suicidal impact,

PROCLAMATION EMANCIPATION

Ancient High culture desecrated by thieves,
Elders teach/ folk fail to receive,
Things fall apart/ the Holy One grieves,
Spirit compels me to preach,
Fire lyrics to teach Rebel speech to release
Chained souls, unleash
Queens and Kings to reach,
For Great Spirit receive
Divine power achieve
Higher heights and flights
Than we can even conceive
And now the revelation
Eat the fruit and believe.

Revolution wisdom drips from the lips,
Missile lyrics slobber and the nation trips,
Mothership dips and the lost and found flips,
Rebel feet on pavement shaking up the Richter,
Hueman movement mashing up the vector,
Vision eyes open and I and I are victors,
I am possessed by Spirit of the free,
Baptizes me in a rejuvenating sea,
Jah Love unfurls sacred scroll to me,
Driving my grind up to destiny,
Feed into veins keys of life,
Truths that cut like double edged knife,

PROCLAMATION EMANCIPATION

Raise the children/ love the wife,
Raise up rebels to survive the strife,
Punk smoke punks and don't know they punk out,
Village being pillaged/ taking trunks of cash out,
Politics' stench indicates there's a skunk out
Foolish infants faking civilization,
Running the nation like big plantation,
And some Negros are cool with castration,
But no, not I, hell no, I won't go,
Jah Hand lift us above the flow,
We come together/ commence to glow,
Old soul drum beats move us to grow up,
Devil's pork of lies we proceed to throw up,
Commence the count, we primed to blow up,
Get right wild and wise
Strategize demise
Of parasitic flies
Who wickedly surmise
To exterminate Blacks
Just like Arawaks
I'm not down with that
I tighten up the slack/ cut lose the flack

Drink sun rays to bloom to blue-Black,
Mind grow mental mansions out of shacks,
Dance Holy Dance dash down devil attack,

PROCLAMATION EMANCIPATION

Dig deep tap the sap of spirituality,
Discipline minds to master technology,
Pool soul power and prosper industry,
Quench flaming bullets with peace military,
Slap skins raise the pen in Jah creativity,
Heal scars, healthy people have unity,
Ain't nation-time 'til we cultivate community,
Read pray read raise Holy intellect,
Call on Jah to guide I and protect,
Lay low the ego, cut back vanity,
Futuristic vistas to transcend insanity,
Be divine builders, demand a new Huemany,
I am the scribe, descended from Bassa tribe,
Savvy with the vibe, immune to the bride,
Called by God to bop this oration,
Fertile lyrics flowing to rhythm ejaculation,
Get up stand up burn down plantation,
We got the jazz to shift the situation
Freedom seed we need to ensue germination
The mother ship is landing at freedom station,
Get on board Huemans and ride the elevation
We write our own emancipation
